

# TRACK 17 – Practitioner Track

## Call for Talks and Presentations

21th International Conference on  
INFORMATION SYSTEMS FOR CRISIS RESPONSE AND MANAGEMENT  
(ISCRAM)

*“Theme: Embracing the Crisis Management  
Lifecycle”*

Conference May 25<sup>th</sup>-29<sup>th</sup>, 2024

**Münster - Germany**

University of Münster and State Fire Service Institute North Rhine-Westphalia

<https://iscram2024.ercis.org/>

### THE TRACK OVERVIEW

Following the ISCRAM tradition and the conference vision, crisis management practitioners are invited to present their work in the practitioner track. Unlike other tracks, which require a CoRe- or WiP-paper for presentation, ISCRAM 2024 is adopting a novel approach informed by feedback from practitioner communities. We encourage practitioners to share their experiences, realities, and insights on current ISCRAM challenges and solutions through talks, without the need for paper submissions. This initiative aims to facilitate the sharing of pertinent ISCRAM topics and foster stronger collaboration between academics and practitioners.

### TRACK TOPICS

The theme of the ISCRAM 2024 is “Embracing the Crisis Management Lifecycle.” This theme emphasizes a holistic and integrated process view of crisis management to overcome isolated considerations of crisis management lifecycle phases. It highlights the significance of well-structured roles, tasks, and processes in fostering effective communication and collaboration among stakeholders. In line with our pracademic approach, we eagerly anticipate insights from practitioners. If you wish to contribute your process-centric perspective on crisis management, please submit a brief abstract of your presentation.

## HOW TO SUBMIT

Your presentation should be a talk lasting approximately 10-15 minutes. To be considered, please submit an abstract of your talk. The abstract, limited to 400 words, should outline the main theme of your presentation and its connection to the ISCRAM theme. Additionally, include details about your practitioner organization, your role there, and your relationship to the topic being discussed. Upon submission, the track chairs and selected academic experts with expertise in your topic's domain will review your contribution.

The participation in the ISCRAM practitioner track is free. However, participants in the practitioner track must register for the main conference. All submissions should be made electronically using the [ISCRAM abstract template](#). Please send your abstract as a **PDF** document to [iscram2024@ercis.org](mailto:iscram2024@ercis.org) by 28<sup>th</sup> of February 2024 latest. The review results will be published by the 15<sup>th</sup> of March 2024. In case of further questions, please do not hesitate to contact us via email.

## TRACK CHAIR AND CO-CHAIR
